## About International Biometric Group

---

Founded in 1996, International Biometric Group, LLC is the biometric industry's leading independent integration and consulting company, providing a broad range of services to government and private sector clients. IBG is vendor-independent and technology-neutral, objectively and independently assessing companies, technologies, products, and projects. IBG is headquartered in New York City with offices in London and Washington D.C.

IBG's **consulting services** include feasibility assessments for large-scale projects, strategic market analysis for development of biometric product or service offerings, biometric system design and specification, technology testing and evaluation, and privacy impact assessments of biometric deployments. IBG provides independent biometric consulting services to major corporate and government entities. IBG provides industry leadership on complex issues such as standards, interoperability, privacy, and the value proposition of deploying biometrics.

IBG's **research and testing services** include technology testing and certification and market analysis. IBG is the biometric industry's leading authority on real-world accuracy and performance, having performed its independent Comparative Biometric Testing of leading technologies since 1999. IBG's Comparative Biometric Testing generates FMR, FNMR, and FTE for leading biometric systems. Leading public and private sector institutions base deployment decisions on test results from over 40 systems including fingerprint, face recognition, iris recognition, hand geometry, and voice recognition.

IBG's **technology and integration solutions services** include designing, developing, and integrating customized biometric systems. IBG's capabilities span large-scale identification systems, multimodal systems, background check and fingerprinting systems, and access control solution. IBG has integrated dozens of toolkits and devices from leading providers of fingerprint, face, and iris recognition technologies, and implements custom solutions to address complex requirements.

<b>Executive Summary .....</b>	<b>1</b>
<b>1 Introduction.....</b>	<b>15</b>
1.1 Defining the Biometric Market and Industry .....	15
1.2 Product and Service Revenues .....	15
1.3 Biometric Technologies, Applications, and Marker Sectors .....	17
1.4 Collection and Assessment of Report Data .....	18
1.5 Vendor Classifications: Tier Rankings .....	18
<b>2 Total Biometric Revenues through 2012.....</b>	<b>19</b>
2.1 Annual Biometric Industry Revenues through 2012.....	19
2.2 Growth Drivers and Inhibitors .....	20
2.2.1 Market-Based Growth Drivers .....	20
2.2.2 Industry-Based Growth Drivers.....	20
2.2.3 Market-Based Growth Inhibitors .....	21
2.2.4 Industry-Based Growth Inhibitors.....	21
<b>3 Biometric Technologies through 2012 .....</b>	<b>23</b>
3.1 Introduction.....	23
3.2 Annual Revenues by Technology through 2012.....	24
3.3 Revenues by Technology: Biometric Market Maps .....	24
3.3.1 Introduction.....	24
3.3.2 Components .....	24
3.4 Fingerprint.....	27
3.4.1 Overview.....	27
3.4.2 Revenue by Application .....	28
3.4.3 Industry Landscape .....	29
3.4.4 Growth Drivers and Enablers.....	30
3.4.5 Growth Inhibitors.....	31
3.4.6 Sensor Technologies .....	32
3.4.7 Form Factors .....	34
3.4.8 Matching Algorithms .....	34
3.4.9 Fingerprint Market Map.....	36
3.4.10 Fingerprint Market and Industry Trends through 2012.....	37
3.5 Face Recognition.....	38
3.5.1 Overview.....	38
3.5.2 Revenues by Application .....	39
3.5.3 Industry Landscape .....	40
3.5.4 Growth Drivers and Enablers.....	41
3.5.5 Growth Inhibitors.....	42
3.5.6 2D and 3D Face Recognition Technologies .....	43
3.5.7 Face Recognition Market Map.....	44
3.5.8 Face Recognition Market and Industry Trends through 2012 .....	45
3.6 Hand Geometry .....	46
3.6.1 Overview.....	46
3.6.2 Revenues by Application .....	46
